MOHAMMAD WAIZ MIRZA

JUNIOR BUSINESS ANALYST | DIGITAL PRODUCTS | USER INSIGHTS
Bristol, UK • Mohammad2.Mirza@live.uwe.ac.uk • GitHub • Tableau Public • Portfolio

PROFILE

Data Science and AI undergraduate with a computing and business management background and hands-on experience building digital products. Targeting Junior Business Analyst roles focused on understanding user needs, mapping workflows, and translating real-world business problems into practical digital solutions. Project experience covers stakeholder mapping, AS-IS/TO-BE process flows, user stories, acceptance criteria, and UAT planning, combined with visual data reporting, website behaviour tracking, and rapid AI-assisted prototyping.

RELEVANT SKILLS

- **Business Analysis:** Problem diagnosis, stakeholder mapping, AS-IS/TO-BE process mapping, functional requirements, user stories and acceptance criteria, UAT planning, familiar with tools like Miro.
- **Analytics & Reporting:** Tableau Public, dashboard design, KPI tracking, Google Analytics 4 (GA4), Microsoft Clarity (session recordings and heatmaps), chart selection, visual storytelling.
- **Digital Product Delivery:** Workflow improvement, interface design, rapid prototyping, Firebase, Netlify, GitHub.
- **AI-Assisted Prototyping:** Cursor, Google Antigravity, Claude, Gemini, ChatGPT, OpenCode, Z.ai/GLM, prompt-led prototyping, UI generation, and debugging.
- **Web Technologies:** Working familiarity with HTML, CSS, and JavaScript, Tailwind CSS, Chart.js.

SELECTED PROJECTS

Student Voice Bilingual Student Feedback Platform | Independent Cohort Initiative, 2026 | Live Project

- Identified key friction points in the cohort's WhatsApp-based feedback process, including platform differences, English/Chinese language barriers, and student privacy concerns around sharing personal phone numbers.
- Designed and launched a bilingual (English and Simplified Chinese) web platform enabling account-free issue submission, public browsing, and real-time voting, complete with content reporting and admin moderation on Firebase and Netlify.
- Produced a full Business Analysis documentation pack including a stakeholder map, AS-IS/TO-BE process flows, functional requirements, user stories with acceptance criteria, and UAT test scenarios.

Capital Bikeshare Operations & Demand Dashboard | Portfolio Project, 2026 | Live Dashboard

- Investigated 17,379 hourly and 731 daily rental records from the UCI Bike Sharing Dataset (2011–2012) to answer fleet capacity and scheduling questions from an Operations Manager perspective.
- Directed the dashboard layout, KPI selection, year/day filtering, and a 7-day by 24-hour demand heatmap to pinpoint peak commuter bottlenecks.
- Uncovered that registered subscribers accounted for 81% of total rides, providing clear operational evidence to prioritise weekday commuter fleet availability, while using AI-assisted workflows to validate calculations and streamline deployment.

Tableau Data Visualisation Portfolio | Portfolio Work, 2026 | Tableau Public

- Built interactive dashboards analysing Bristol road safety incidents, Cardiff historical climate trends, and Alibaba quarterly sales performance, focusing on clear KPI presentation, calculated fields, and actionable visual insights for decision-makers.

ADDITIONAL EXPERIENCE

Student Representative — Data Science & AI | UWE Bristol, 2026–Present

- Act as the primary communication bridge between the undergraduate cohort and academic staff, gathering student requirements and escalating course feedback in faculty meetings.

EDUCATION

University of the West of England (UWE Bristol) | 2026–2027 (Expected)
BSc (Hons) Data Science and Artificial Intelligence (Top-Up)

- *Selected Modules:* Data Visualisation & Communication in Practice, Essentials & Applications of AI, Professional & Academic Skills, Individual Project.

NCC Education | 2024–2026

- **Level 5 Diploma in Computing (with Business Management)** — Pass (120 credits), 2026
- **Level 4 Diploma in Computing (with Business Management)** — Pass, 2025
- **Level 3 International Foundation Diploma for Higher Education Studies**
- *Relevant Units:* Information Systems and Organisations, Business IT Project, Principles of Business Operations, IT Project Management, Artificial Intelligence, eBusiness, and Databases.
